

# GGG KB1053 Clean installation of Voobly client

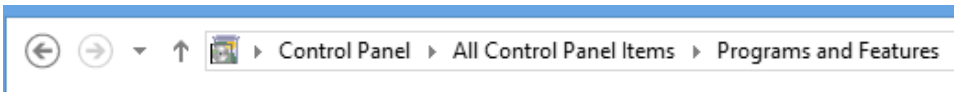

This article applies to all operating systems.

## Step-by-step guide

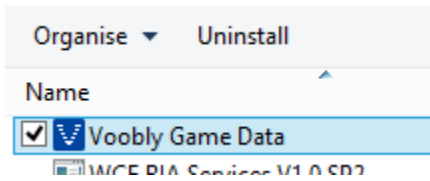

1. Please close Voobly first before performing a clean installation.

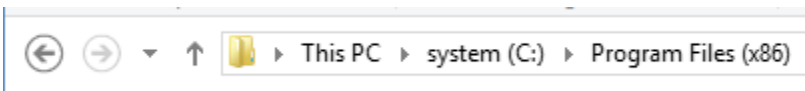

2. Go to **Control Panel > Programs and Features**

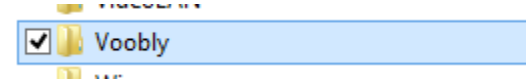

3. Right click on **Voobly Game Data** and choose **Uninstall** from drop down

4. Navigate to **C:\Program Files (x86)**

5. Rename the folder **Voobly** in that directory to **Voobly\_old**

6. Download the latest Voobly client from [Voobly web site](#).

7. You are done!

## Further Troubleshooting

If you are unable to re-install Voobly client e. g. when getting registry errors, we recommend running a full system scan first, using the following virus protection (free, scanner only, no real-time protection):

- [Malwarebytes Anti-Malware](#)
